## Step away from the office.

Away from screens and stuffy rooms, teams think more clearly. With space around them, fresh air and fewer distractions, better conversations happen naturally.

When teams step outside the usual office environment, they slow down, talk more openly and think more clearly.

*A simple change of setting can make all the difference.*

At Longberry Farm, we offer a relaxed, private countryside setting for corporate away days, team building events and retreats. Whether you're planning a strategy day, a team reset or simply want to reward your people with something memorable.

Our site gives you the flexibility to shape the day your way.

*No rigid packages.*

*No forced activities.*

Just space, support and a calm setting that does the heavy lifting.
